

Post Graduate Diploma in IMMEDIATE LOADING IMPLANTS

Maharaj Vinayak Global University, Jaipur, India

(Recognized by University Grant Commission)

in association with

International Implant Foundation, Munich, Germany

proudly announces a

Post Graduate Diploma Programme in

“Immediate Loading Implants”

at

Jaipur Dental College, Jaipur, India

August 2022 to May 2023

An opportunity to learn A to Z predictable immediate functional loading by renowned international faculty like

Prof Dr. Stefan Ihde

Father of Modern Basal Implantology

Dentist, Oral Surgeon, Implantologist, Periodontologist, IF Teacher of Immediate Loading

- This PG diploma programme dedicated for the enrichment for the proven science of dental Implantology in immediate loading
- This programme features 5 modules registration Starting from Aug 2022 till May 2023. Each module comprises extensive 5 days of theoretical and clinical sessions, to be taught by international and national faculty of international implant foundation, Munich, Germany
- Various designs of dental implants like conventional root form and single piece, multi unit single piece implants, lateral implants, Cortico-Basal Implants will be taught and placed by participants. So each Module participants place implants on patients provided by college under guidance of faculty .
- In each clinical Module Participants operates one jaw each, total 2 full mouth rehabilitation restoring with 40 strategic implants®
- Topics from segmental, aesthetics, full mouth rehabilitation, Atrophic jaws, resection case restorations and extra oral Implants will be covered in the programme
- Retrievability with multi unit single piece implants will be covered .
- Various techniques like Pterygoid engagement, zygomatic implant, IAN bypass to avoid cantilever situation, soft tissue grafting, dentinal grafting with growth factors for emergence profile at aesthetic zones will be covered .
- Emphasis will be on flapless approach
- Dedicated module covering various advancement of prosthetics fabrication for Immediate Loading Implantology will be covered .
- Final session will have clinical presentations, objective and subjective examinations, on that basis participants performance will be evaluated.

On successful completion, Post Graduate Diploma in Immediate Loading Implants by Maharaj Vinayak Global University, Jaipur, India and Master Class Immediate Loading Certificate by International Implant Foundation, Munich, Germany will be awarded.

CURRICULUM UNIQUE FEATURES

All design of implants
currently in practice
will be taught

Extra oral implant
prosthetic and surgery

Nerve bypass in Atrophic mandible
to avoid cantilever situation

Awardation of Post Graduate Diploma in
Immediate Loading Implants from
Maharaj Vinayak Global University, Jaipur,
India recognised by UGC and
Master Class Immediate Loading Certificate
by International Implant Foundation,
Munich, Germany

Lectures and presentations on
resection cases rehabilitation
Bone Prosthetic tips and tricks

Various technique for immediate loading
like pterygoids and zygomatic implant
placement (with flap and flapless)
will be taught

In each clinical Module Participants
operates one jaw each, total 2 full
mouth rehabilitation restoring with
40 strategic implants®

Surgical kit will be provided to participants
free of cost and the implants to be operated
on patients by participants

- Hexacone conventional implant surgical kit
- Hexacone multi unit single piece implant kit
- KOC and BECES implant kit
- Pterygoid implant kit & Zygomatic implant kit
- Multi unit implant kit

Post Graduate Diploma in IMMEDIATE LOADING IMPLANTS

SCHEDULE

2022

Aug

Participants Registration

Issue of Study Material (Soft copy) and Clinical Books from Ihde & Ihde (hard copy)

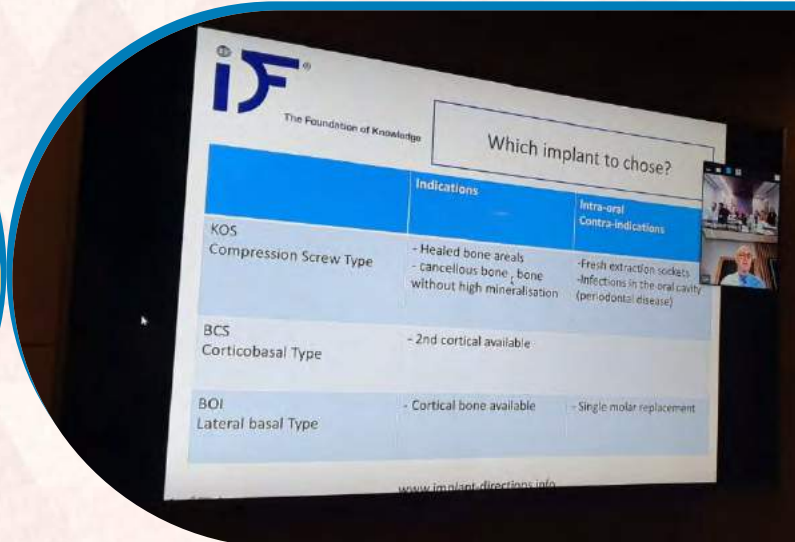

2022

Sep

Online Master Class By Prof Dr. Stefan Ihde

Topics Covered:

1. Introduction into Cortico Basal Implantology, definitions, terminology, background in science, development, comparison to 2-stage implants, Authorization for the devices
2. Real bone physiology: the rational for immediate loading protocols.
 - Applied bone physiology: the rational for immediate loading protocols, how to make the best out of (Sometimes almost No) bone: cortical engagement, cortical support, corticalisation of spongy bone
 - Osseofixation vs Osseointegration
 - Disadvantages of the Method of Osseointegration
 - Why does "All-on-4" work in many cases, although conventional dental plants are use?
 - Under which conditions can conventional implants work in an immediate loading protocol?
3. Comments on Augmentations in Cortico Basal Implantology.

Module 1

Clinic Session & Lecture hands on patient
International Faculty Prof Dr. Stefan Ihde

Module 2

Clinic Session & Lecture hands on patient
International Faculty Prof. Dr. Antonina Ihde

Module 3

Clinic Session & Lecture hands on patient
International Faculty Prof. Dr. Yan Vares

Module 4

Clinic Session & Lecture hands on patient
International Faculty Dr. Łukasz Pałka

Module 5

Examination Ppt presentation
Followed by Convocation
